
KEHINDE AANUOLUWAPO BLESSING

Software Developer & Cybersecurity Researcher | Web & Mobile Applications | Cloud & API Integration

+234 810 714 8275 · kennymercy000@gmail.com · Ogbomoso, Nigeria · github.com/Kenny-TJ · linkedin.com/in/aanuoluwapo-blessing-60849820b

TECHNICAL SKILLS

Languages
Python · JavaScript · HTML5 · CSS3 · SQL

Frameworks
Django · Node.js · React (fundamentals)

Databases
MySQL · SQLite

Dev Tools
Git · GitHub · VS Code · Linux CLI

Cloud / AI
Cloud platforms · AI-assisted dev · Vibe Coding

Data
MS Excel · Power BI

Security
Ethical hacking · Digital forensics

Design
Graphic design · Canva · AI design tools

EDUCATION

M.Sc Cyber Security & Digital Forensics
Nigerian Defence Academy (NDA)
In Progress — Expected 2027

B.Tech Computer Science
LAUTECH
2023 · Second Class Upper

CERTIFICATIONS

Sep 2025 Ethical Hacking & Cybersecurity Fundamentals

May 2025 Data Analytics — ImpactTECH, Kaduna

Jan 2024 Web Development, Kaduna

2019 Basic Graphics Design

AVAILABILITY

8:30 PM – 11:00 PM WAT (GMT+1), Mon–Fri.
Fully remote-ready with stable internet.

STRENGTHS

- Self-managed & remote-first
- Technical documentation
- Team collaboration & mentoring
- Clear written communication
- Stakeholder coordination
- Fast learner & problem-solver

PROFESSIONAL PROFILE

Software developer and cybersecurity researcher with a B.Tech in Computer Science (Second Class Upper, LAUTECH) and an ongoing M.Sc in Cyber Security at the Nigerian Defence Academy. Hands-on experience building and deploying live web applications with Django and Python, integrating APIs, managing databases, and using Git/GitHub. Comfortable in remote-first, asynchronous teams; committed to Africa's digital future and ready to contribute to real-world cloud and software projects.

PROJECTS

Leviticals V2 — Ministry Web Platform 2021 – Present
Django · Python · MySQL · GitHub | leviticals.pythonanywhere.com

- Built and deployed a full Django web application, live at leviticals.pythonanywhere.com
- Designed MySQL database schema; built user registration, content management, and admin panel
- Managed end-to-end version control using Git/GitHub

SU Eleme Area — Reporting Portal & Registration System 2026 – Present
Web Dev · Firebase · AI tooling | su-eleme-area-reporting-web.web.app

- Deployed live reporting website and registration portal serving 9 ministry zones (Firebase)
- Integrated AI-assisted tools for design automation and digital workflow optimization
- Led full project from requirements through deployment and stakeholder onboarding

CNN-CDMO Fingerprint Authentication System 2025 – Present
Python · CNN · Chaotic DMOA · Cybersecurity Research | NDA M.Sc

- Designed CNN + Chaotic Differential Moth Optimization biometric system for student portal security
- Produced full technical paper; presented at NDA department-level seminar

EXPERIENCE

Media Team Lead (Volunteer) Feb 2026 – Present
Scripture Union Nigeria, Eleme Area

- Led development of a live reporting website and registration portal serving 9 zones
- Produce video content, fliers, and documentation; integrate AI tools to automate workflows

Online Tutor & Private Instructor Feb 2024 – Present
Pathfinder Tutoring (Remote)

- Develop ICT and science e-learning materials for Junior Cycle and secondary students

Academic Instructor — Computer Science & Mathematics Jan – Jun 2026
God's Heritage Baptist School, Kaduna

- Taught Computer Science and Mathematics at secondary level; developed ICT exam materials

Associate Travelling Secretary Jan – Nov 2024
Scripture Union Nigeria, Eleme Area

- Coordinated multi-zone programmes and reporting; acted as Travelling Secretary when required
